Disease screening test completion status

Identifying and definitional attributes

Metadata item type: Property

METEOR identifier: 529896

Registration status: [Health!](#), Standard 29/08/2014

Definition: An indication of whether a [disease screening](#) test was correctly or incorrectly completed.

Correctly completed tests are those where all the requirements of the test are fulfilled. For example, if two samples are required, then both are returned, or if there is a time limit, then the test is completed within the time specified.

Property group: [Screening event](#)
