Case, cultural support and leaving care plan cluster

Exported from METEOR (AIHW's Metadata Online Registry)

Case, cultural support and leaving care plan cluster

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	551097
Registration status:	Community Services (retired), Recorded 04/10/2014
DSS type:	Data Element Cluster
Scope:	The data elements in the Case, cultural support and leaving care plan cluster are used in conjunction with each other to describe:

- Whether a child was required by jurisdictional policy/legislation to have a current, documented and approved case plan, cultural support plan and/or leaving care plan on the night of 30 June.
- Whether a child had a current, documented and approved case plan, cultural support plan and/or leaving care plan in place on the night of 30 June.

Collection and usage attributes

Guide for use: The three data elements in this cluster can be used in combination as a matrix to describe, for each type of plan, whether a child protection client was required to have a plan and the currency of the plan at 30 June.

This is achieved by the combination of the three data elements:

1. Type of plan: *Child—type of plan required, child protection client plan code N[N]*
2. Current plan required indicator: *Child—current plan required indicator, yes/no/not applicable/not stated/inadequately described code N*
3. Current plan in place indicator: *Child—current plan in place indicator, yes/no/not applicable/not stated/inadequately described code N*.

Type of plan	Current plan required (Y/N)	Current plan in place (Y/N)
Case plan	N[N]	N[N]
Leaving care plan	N[N]	N[N]
Cultural support plan	N[N]	N[N]
