# Mental health seclusion and restraint NBEDS 2015-

## Identifying and definitional attributes

<b>Metadata item type:</b>	Data Set Specification
<b>METEOR identifier:</b>	558137
<b>Registration status:</b>	<a href="#">Health!</a> , Standard 13/11/2014
<b>DSS type:</b>	Data Set Specification (DSS)
<b>Scope:</b>	<p>The scope of the Mental health seclusion and restraint National Best Endeavours Data Set (SECRET NBEDS) is all specialised mental health public hospital acute service units. Short stay mental health units are in scope, e.g. Psychiatric Emergency Care Centres.</p> <p>Wards or units other than specialised mental health services, such as <a href="#">emergency departments</a>, are out of scope.</p> <p>Specialised mental health acute forensic hospital services are in scope, regardless of which department manages the service, for example health versus correctional services department.</p> <p>Physical and mechanical restraint are in scope for this collection. While chemical/pharmacological restraint is defined in some jurisdictional Mental Health Acts, issues around definitions and collection preclude nationally comparable data supply activities for this category of restraint. Therefore, chemical/pharmacological restraint is out of scope for the purposes of data collection for the SECRET NBEDS.</p>

## Collection and usage attributes

<b>Statistical unit:</b>	Aggregate collection of <a href="#">seclusion</a> and <a href="#">restraint</a> events (including related information) at the <a href="#">hospital</a> level and, disaggregated by <a href="#">target population</a> , at the <a href="#">specialised mental health service</a> level (as hospital sub-units).
<b>Implementation start date:</b>	01/07/2015
<b>Comments:</b>	This NBEDS is likely to undergo continuous enhancements as data definitions and information systems are developed that improve the availability of information for collection at lower levels of analysis (e.g. separation, seclusion/restraint event and person level data).

### *Glossary items*

Glossary terms that are relevant to this data set are included here.

## Metadata items in this Data Set Specification

Seq No.	Metadata item	Obligation	Max occurs
-	<a href="#">Mental health restraint events cluster</a>	Mandatory	1
	<i>DSS specific information:</i>		
	Data is limited to hospitals that provide <a href="#">acute</a> specialised mental health public hospital services.		
	The data element <a href="#">Specialised mental health service target population</a> should be used to distinguish between General, Child and adolescent, Youth, Older person and Forensic services for each hospital. Data records for this collection may therefore differ to the Admitted service unit records provided for the Mental health establishments NMDS.		
-	<a href="#">Specialised mental health service—number of restraint events, total number N[NNN]</a>	Mandatory	3
-	<a href="#">Specialised mental health service—type of restraint event, code N</a>	Mandatory	3
-	<a href="#">Address—statistical area, level 2 (SA2) code (ASGS 2016) N(9)</a>	Mandatory	1
-	<a href="#">Establishment—accrued mental health care days, total N[N(7)]</a>	Mandatory	1
	<i>DSS specific information:</i>		
	Jurisdictions should note that this data element is used to be consistent with the Mental health establishments NMDS and allow the population of MHS PI 15: Rate of seclusion. However, the figures reported against accrued mental health care days for the purposes of the SECREST NBEDS should be calculated and supplied using the same methodology as previous Seclusion ad hoc submissions. This means that if data were previously supplied using an occupied bed days methodology, the data provider should continue supplying figures consistent with this methodology.		
-	<a href="#">Establishment—Australian state/territory identifier, code N</a>	Mandatory	1
-	<a href="#">Establishment—region identifier, X[X]</a>	Mandatory	1
	<i>DSS specific information:</i>		
	Region identifiers used in this collection should map to the identifiers used in data for the NMDSs for Community mental health care, Residential mental health care and Mental health establishments.		

Seq No.	Metadata item	Obligation	Max occurs
-	<a href="#">Hospital—hospital identifier, XXXXX</a>	Mandatory	1
	<b>DSS specific information:</b>		
	Hospital identifiers used in this collection must be consistent with those used in data reported to the Mental health establishments NMDS.		
-	<a href="#">Hospital—hospital name, text XXX[X(97)]</a>	Mandatory	1
-	<a href="#">Specialised mental health service organisation—organisation identifier, XXXX</a>	Mandatory	1
	<b>DSS specific information:</b>		
	Identifiers used in this collection should map to the identifiers used in data for the NMDSs for Community Mental Health Care, Residential Mental Health Care and Mental Health Establishments.		
-	<a href="#">Specialised mental health service—co-location with acute care hospital, code N</a>	Mandatory	1
-	<a href="#">Specialised mental health service—number of episodes of admitted care, total episodes N[NNNN]</a>	Mandatory	1
	<b>DSS specific information:</b>		
	Data is limited to hospitals that provide <a href="#">acute</a> specialised mental health public hospital services.		
	The data element <a href="#">Specialised mental health service target population</a> should be used to distinguish between General, Child and adolescent, Youth, Older person and Forensic services for each hospital. Data records for this collection may therefore differ to the Admitted service unit records provided for the Mental health establishments NMDS.		
-	<a href="#">Specialised mental health service—number of episodes with seclusion, total episodes N[NNNN]</a>	Mandatory	1
	<b>DSS specific information:</b>
