National Indigenous Reform Agreement: PI 12b- Attainment of Year 12 or equivalent (survey data), 2015

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI 12b-Attainment of Year 12 or equivalent (survey data), 2015
METEOR identifier:	579098
Registration status:	Indigenous , Superseded 18/11/2015
Description:	<p>The indicator has two measures:</p> <p>a) Proportion of the 20-24 year old population having attained at least a Year 12 or equivalent or Australian Qualifications Framework (AQF) Certificate level II or above.</p> <p>b) Year 12 certification.</p>
Indicator set:	National Indigenous Reform Agreement (2015) Indigenous , Superseded 18/11/2015
Outcome area:	Schooling promotes social inclusion and reduces the educational disadvantage of children, especially Indigenous children Indigenous , Superseded 01/07/2016

Collection and usage attributes

Population group age from:	20 years
Population group age to:	24 years
Computation description:	<p>Presentation: Number and percentage.</p> <p>Relative standard errors and 95% confidence intervals calculated for numbers and proportions.</p>
Computation:	100 x (Numerator ÷ Denominator).
Numerator:	<p>a) People aged 20–24 years who have completed Year 12 or whose level of highest non-school qualification is at AQF Certificate level II or above.</p> <p>b) Measure is yet to be developed.</p>

Numerator data elements:

Data Element / Data Set

Person—age

Data Source

[ABS Survey of Education and Work \(SEW\)](#)

Guide for use

Data source type: Survey

Based on 2012 SEW.

Supplementary non-Indigenous numerator data source in between Census years

Data Element / Data Set

Person—level of highest educational attainment

Data Source

[ABS Survey of Education and Work \(SEW\)](#)

Guide for use

Data source type: Survey

Based on 2012 SEW.

Supplementary non-Indigenous numerator data source in between Census years

Data Element / Data Set

Person—age

Data Source

[ABS Australian Aboriginal and Torres Strait Islander Health Survey \(AATSIHS\), 2012-13](#)

Guide for use

Data source type: Survey

Supplementary Indigenous numerator data source in between Census years

Data Element / Data Set

Person—level of highest educational attainment

Data Source

[ABS Australian Aboriginal and Torres Strait Islander Health Survey \(AATSIHS\), 2012-13](#)

Guide for use

Data source type: Survey

Supplementary Indigenous numerator data source in between Census years

Denominator:

- a) Total populations (Indigenous and non-Indigenous) aged 20–24 years.
- b) Measure is yet to be developed.

Denominator data elements:

Data Element / Data Set

Person—age

Data Source

[ABS Survey of Education and Work \(SEW\)](#)

Guide for use

Data source type: Survey
Supplementary non-Indigenous denominator data source in between Census years

Data Element / Data Set

Guide for use

Data source type: Survey
Supplementary Indigenous denominator data source in between Census years

Disaggregation:

National, remoteness area: by Indigenous status.

Disaggregation data elements:

Data Element / Data Set

Person—area of usual residence, collection district (CD) (ASGC 2006)

Data Source

[ABS Survey of Education and Work \(SEW\)](#)

Guide for use

Data source type: Survey

Based on 2012 SEW.

Data Element / Data Set

Person—Indigenous status

Data Source

[ABS Survey of Education and Work \(SEW\)](#)

Guide for use

Data source type: Survey

Based on 2012 SEW.

Data Element / Data Set

Person—area of usual residence, statistical area level 1 (SA1) (ASGS 2011)

Data Source

[ABS Australian Aboriginal and Torres Strait Islander Health Survey \(AATSIHS\), 2012-13](#)

Guide for use

Data source type: Survey

Comments:

For a)

Data sources for this indicator are:

- AATSIHS (Indigenous); Core content: includes NATSIHS component of the AATSIHS and NATSINPAS component of the AATSIHS; and
- SEW (non-Indigenous).

The 2014 report included data on the 2012-13 NATSIHS sample only. The 2015 report will include the core content of 2012-13 NATSIHS and NATSINPAS.

The baseline report reported data from the 2008 NATSISS (Indigenous) and the 2008 SEW (non-Indigenous) as the supplementary data collection. Persons whose level of study is determined to be certificate level but is not able to be further defined (i.e., Certificate nfd) are assumed to have attained below Certificate level II and are therefore excluded from the numerator.

SEW data: People whose level of study cannot be determined are assumed to have attained below Certificate II and are therefore excluded from the numerator.

Prior to 2010, the SEW did not include people living in very remote areas. From 2010 onwards, the SEW does include people living in very remote areas except those living in Indigenous communities in very remote areas. Whilst a reduced scope, this may still affect the comparability of results.

Prior to 2010, the SEW did not include the remoteness variable. Therefore, a non-Indigenous comparator for remoteness for the 2008 NATSISS is not reported.

The size of the standard errors mean that SEW data may not be adequate for measuring change over time.

Baseline year for NIRA target (Halve the gap in Year 12 or equivalent attainment rates by 2020) is 2008; baseline year for this measure is 2008; target year is 2020.

For b)

No data are available for reporting for measure b) for the 2014 reporting cycle, as this measure is yet to be developed.

Representational attributes

Representation class: Percentage**Data type:** Real**Unit of measure:** Person**Format:** NN[N].N
