Value domain attributes

Representational attributes

Representation class:	Total	
Data type:	Number	
Format:	N[NNN]	
Maximum character length:	4	
	Value	Meaning
Supplementary values:	9999	Not stated/inadequately described

Data element attributes

Collection and usage attributes

Guide for use:	Articles should be counted within the financial year in which they were published, irrespective of when the research project was undertaken. A peer reviewed publication is either a book or periodical in electronic or printed format for which the content is reviewed by equal or higher ranked people in the same field. The articles must be directly linked with a research project that has been through a formal approval process that includes an ethics committee or equivalent governance approval.
