National Healthcare Agreement: PI 32–Patient satisfaction/experience, 2016

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Progress measure
Short name:	PI 32–Patient satisfaction/experience, 2016
METEOR identifier:	598714
Registration status:	Health! , Superseded 31/01/2017
Description:	Nationally comparative information that indicates levels of patient satisfaction around key aspects of the care they received.
Indicator set:	National Healthcare Agreement (2016) Health! , Superseded 31/01/2017
Outcome area:	Patient Experience Health! , Standard 07/07/2010
Data quality statement:	National Healthcare Agreement: PI 32-Patient satisfaction/experience, 2016 QS Health! , Superseded 31/01/2017

Collection and usage attributes

Population group age from:	Persons from 15 years
Computation description:	Population is limited to persons aged 15 years and over. Analysis by remoteness and Socio-Economic Indexes for Areas (SEIFA) Index of Relative Socioeconomic Disadvantage (IRSD) is based on usual residence of person. Presented as a percentage.
Computation:	$100 \times (\text{Numerator} \div \text{Denominator})$, calculated separately for each of a) to i) below.

Numerator:

- a) Number of persons who saw a GP (for their own health) in the last 12 months who waited longer than felt acceptable to get an appointment.
- b) Number of persons who were referred to a medical specialist by a GP in the last 12 months who waited longer than they felt acceptable to get an appointment.
- c) Number of persons who saw a GP in the last 12 months who reported the GP always or often: listened carefully to them; showed respect; and spent enough time with them (calculated separately for each category).
- d) Number of persons who saw a medical specialist in the last 12 months who reported the medical specialist always or often: listened carefully to them; showed respect; and spent enough time with them.
- e) Number of persons who saw a dental practitioner in the last 12 months who reported the dental practitioner always or often: listened carefully to them; showed respect; and spent enough time with them.
- f) Number of persons who went to a hospital emergency department in the last 12 months who reported the ED doctors or specialists always or often: listened carefully to them; showed respect; and spent enough time with them.
- g) Number of persons who went to a hospital emergency department in the last 12 months who reported ED nurses always or often: listened carefully to them; showed respect; and spent enough time with them.
- h) Number of persons admitted to a hospital in the last 12 months who reported doctors or specialists always or often: listened carefully to them; showed respect; and spent enough time with them.
- i) Number of persons admitted to a hospital in the last 12 months who reported nurses always or often: listened carefully to them; showed respect; and spent enough time with them.

Guide for use

Data source type: Survey

Used for disaggregation by state/territory and remoteness

Comments: Most recent data available for 2016 National Healthcare Agreement performance reporting: 2014–15 (total population: PEx); 2012–13 (Indigenous: AATSIHS).

Non-Indigenous data from PEx may not be directly comparable with data for Indigenous people from AATSIHS.

Some survey respondents may report pathology and imaging as a referral to a medical specialist.

Information about dental practitioners is obtained by asking survey respondents about services received from a dental professional. Examples of dental professionals given to survey respondents in the questionnaire are dentists, dental hygienists and dental specialists. The intention is that survey respondents should provide information about all dental professionals, which may additionally include such practitioners as dental therapists, oral health therapists, and dental prosthetists, as well as specialists such as orthodontists, periodontists and endodontists.

Responses from proxy interviews are not counted for questions on personal opinions.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person
