National Healthcare Agreement: Pl 05-Levels of risky alcohol consumption, 2016

Identifying and definitional attributes

Metadata item type: Indicator

Indicator type: Progress measure

Short name: PI 05–Levels of risky alcohol consumption, 2016

METEOR identifier: 598839

Registration status: Health!, Superseded 31/01/2017

Description: Proportion of adults at risk of long-term harm from alcohol.

Indicator set: National Healthcare Agreement (2016)

Health!, Superseded 31/01/2017

Outcome area: Prevention

Health!, Standard 07/07/2010

Collection and usage attributes

Population group age

from:

18 years

Computation description:

Data on persons 'at risk of long term alcohol related harm' is based on the 2009 National Health and Medical Research Council (NHMRC) guideline 'for healthy men and women, drinking no more than two standard drinks on any day reduces the lifetime risk of harm from alcohol-related disease or injury' and has been operationalised as: for both males and females, an average of more than 2 standard drinks per day in the last week.

Data on persons 'at risk of long term alcohol related harm' had previously been defined according to the 2001 NHMRC guidelines: for males, an average of more than 4 standard drinks per day in the last week, and for females, an average of more than 2 standard drinks per day in the last week.

Rates are directly age-standardised to the 2001 Australian population.

Analysis by remoteness and Socio-Economic Indexes for Areas (SEIFA) Index of Relative Socio-economic Disadvantage (IRSD) is based on usual residence of

person.

Presented as a percentage.

95% confidence intervals and relative standard errors are calculated for rates.

Computation: 100 × (Numerator ÷ Denominator)

Numerator: Number of persons aged 18 years or over assessed as having an alcohol

consumption pattern that puts them at risk of long term alcohol-related harm.

Disaggregation:

State and territory, by:

- · sex by age
- Indigenous status
- remoteness (Australian Statistical Geography Standard (ASGS) Remoteness Structure)
- 2011 SEIFA IRSD quintiles
- · disability status

Nationally, by:

- sex by remoteness (ASGS Remoteness Structure).
- 2011 SEIFA IRSD deciles.
- remoteness (ASGS Remoteness Structure) by 2011 SEIFA IRSD deciles.

Some disaggregation may result in numbers too small for publication.
