## Collection and usage attributes

**Guide for use:** Total hours expressed as 0, 1, 2, 25, 60 etc.

## Source and reference attributes

**Submitting organisation:** Australian Institute of Health and Welfare

## Data element attributes

### Collection and usage attributes

**Guide for use:** A child is considered to be enrolled if they have been offered a place and formally enrolled and registered in an early childhood education program, and the child:

- has attended an early childhood education program for at least one hour during the reference period **OR**
- was absent during the reference period due to illness or extended holiday leave but expected to return.

Exclude a child who:

- has only completed enrolment procedures at the service
- has left the service (e.g. has ceased education or changed services), or has been absent without explanation for four continuous weeks (excluding school vacations) prior to the reference period.

Non-instructional times such as recess, tea breaks and lunch breaks should be included if the child was under the supervision of the service provider organisation.

The hours enrolled may be less than or equal to the maximum number of hours available for children to attend the early childhood education program, but may exceed the number of hours the child attended at the service in the reference period.

If the number of hours attended per week is unknown, record 99.

**Collection methods:** The hours of an early childhood education program a child is enrolled to receive should be reported for the specified reference period.

Jurisdictions which adopt a two week reference period are required to derive their data to a representative reference week.
