Representational attributes

Representation class:	Date
Data type:	Date/Time
Format:	DDMMYYYY
Maximum character length:	8

Data element attributes

Collection and usage attributes

Collection methods: This metadata item should always be recorded as an 8-digit valid date comprising day, month and year. Year should always be recorded in its full 4-digit format. For days and months with a numeric value of less than 10, zeros should be used to ensure that the date contains the required 8 digits. For example, the date July 1 2002 should be recorded as 01072002.

Comments: The date when greatest need applied to a household may be the same as the date they were eligible for assistance, or the day the paperwork was submitted (i.e. the date the household was placed on the waitlist).
