Episode of mental health care—episode end mode, code NN

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Episode end mode
METEOR identifier:	614146
Registration status:	Independent Hospital Pricing Authority , Standard 16/03/2016
Definition:	Status at separation of person (discharge/transfer/death) and place to which person is released, as represented by a code.
Data Element Concept:	Episode of mental health care—episode end mode
Value Domain:	Episode end mode code NN

Value domain attributes

Representational attributes

Representation class:	Code
Data type:	Number
Format:	NN
Maximum character length:	2

	Value	Meaning
Permissible values:	1	Discharge/transfer to an acute hospital
	2	Discharge/transfer to a residential aged care service, unless this is the usual place of residence
	3	Discharge/transfer to an admitted psychiatric hospital
	4	Discharge/transfer to other health care accommodation (includes mothercraft hospitals; and other residential mental health services)
	5	End of reference period
	6	Left against medical advice/discharge at own risk
	7	Statistical discharge from leave
	8	Died
	9	Other (includes discharge to usual residence, own accommodation/welfare institution (includes prisons, hostels and group homes providing primarily welfare services))
	10	Discharge due to inactivity
11	Statistical discharge due to admitted care type change	
Supplementary values:	98	Unknown
	99	Not stated/inadequately described

Collection and usage attributes

Guide for use:

CODE 4 Discharge/transfer to other health care accommodation (includes mothercraft hospitals)

In jurisdictions where mothercraft facilities are considered to be acute hospitals, patients separated to a mothercraft facility should have a mode of separation of Code 1. If the residential aged care service is the patient's place of usual residence then they should have a mode of separation of Code 9.

CODE 10 Discharge due to inactivity

This code is only used in ambulatory mental health settings.

CODE 11 Statistical discharge due to admitted care type change

This code is only to be used in admitted care settings when a care type has changed causing a statistical discharge but the patient has not physically left the hospital.

Data element attributes

Collection and usage attributes

Guide for use:

For the purposes of activity based funding reporting, CODE 10 Discharge after period of inactivity, is used after the episode of care has had a period of 120 days in which no service contact or event occurs. When CODE 10 is used, the date of the last service event or contact in the episode is used as the date of discharge from the episode.

Collection methods:

For the purposes of activity based funding, this item can be derived from existing data elements.

Admitted patient care: This data element can be derived from [Episode of admitted patient care—separation mode, code N](#)

Residential patient care: This data element can be derived from [Episode of residential care—episode end mode, code N](#)
