## Data element attributes

### Collection and usage attributes

<b>Guide for use:</b>	<p>Calculated by subtracting the date and time the patient presents to the emergency department from the date and time the emergency department non-admitted clinical care commenced. Although triage category 1 is measured in seconds, it is recognised that the data will not be collected with this precision.</p> <p>This data element should not be completed for patients who have an Episode end status of 'Did not wait to be attended by a health care professional' or 'Registered, advised of another health care service, and left the emergency department without being attended by a health care professional'.</p>
<b>Comments:</b>	It is recognised that at times of extreme urgency or multiple synchronous presentations, or if no medical officer is on duty in the emergency department, this service may be provided by a nurse.
