Representational attributes

Representation class:	Identifier
Data type:	Number
Format:	NNN
Maximum character length:	3

Data element attributes

Collection and usage attributes

Guide for use:

The organisation identifier includes components that identify the state/territory (character position one) and the prison (character positions two and three).

Each prison included in the National Prisoner Health Data Collection will have a unique identifier at the national level. Allocation of the prison identifier is undertaken by the Australian Institute of Health and Welfare (the organisation responsible for the National Prisoner Health Data Collection).
