Prison—Aboriginal community controlled health organisation or Aboriginal medical service visitation frequency, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	ACCHO/AMS visitation frequency
METEOR identifier:	626149
Registration status:	Health! , Standard 28/04/2016
Definition:	The frequency of visits by an Aboriginal community controlled health organisation (ACCHO) or an Aboriginal medical service (AMS) to a prison, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Prison—Aboriginal community controlled health organisation or Aboriginal medical service visitation frequency
METEOR identifier:	626146
Registration status:	Health! , Standard 28/04/2016
Definition:	The frequency of visits by an Aboriginal community controlled health organisation (ACCHO) or an Aboriginal medical service (AMS) to a prison.
Object class:	Prison
Property:	Aboriginal community controlled health organisation or Aboriginal medical service visitation frequency

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Value domain attributes

Identifying and definitional attributes

Value domain:	Aboriginal community controlled health organisation or Aboriginal medical service visitation frequency code N
METEOR identifier:	410447
Registration status:	Health! , Standard 25/08/2011
Definition:	A code set representing the frequency of visits by an Aboriginal community controlled health organisation (ACCHO) or Aboriginal medical service (AMS).

Representational attributes

Representation class:	Code
Data type:	Number
Format:	N
Maximum character length:	1

Value	Meaning
-------	---------

Permissible values:	1	Every day
	2	At least once a week
	3	At least once every two weeks
	4	At least once a month
	5	Less often than once a month
	6	Never

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use: This data element is used in conjunction with the data element: [Prison—Aboriginal community controlled health organisation or Aboriginal medical service service provider type, occupation code \(ANZSCO 2013 Version 1.2\) N\[NNN\]{NN}](#) to provide information on the involvement of Aboriginal health services in the provision of general and mental health care to Indigenous prisoners.

Comments: The Royal Commission into Aboriginal Deaths in Custody recommended that corrective services, in conjunction with Aboriginal health services and other such bodies where appropriate, should review and report upon the provision of health services to Indigenous prisoners in correctional institutions. It was recommended that this review should include, among other things, the involvement of Aboriginal health services in the provision of general and mental health care to Aboriginal prisoners. This may be achieved in several ways, including visits by Aboriginal health services, and having Aboriginal health workers as members of the clinic staff (AIHW 2015).
