Person—sex

Identifying and definitional attributes

| Metadata item type: | Data Element Concept |
|----------------------|---|
| METEOR identifier: | 635233 |
| Registration status: | Indigenous, Standard 16/10/2017 Tasmanian Health, Standard 09/01/2018 Early Childhood, Standard 24/07/2018 Homelessness, Standard 10/08/2018 Health!, Superseded 15/02/2022 |
| Definition: | Sex refers to a person's biological characteristics. A person's sex is usually described as being either male or female. A person may have both male and female characteristics, or neither male nor female characteristics, or other sexual characteristics. |

Object Class attributes

Identifying and definitional attributes

| Object class: | Person |
|---------------|---------------|
| Definition: | A human being |

Collection and usage attributes

Comments:Prior to 13 March 2018, the definition of the 'Person' Object class was 'A human
being, whether man, woman or child'. From 13 March 2018, the definition was
edited by removing the words '...whether man, woman or child' so that a person is
defined as 'A human being'. This amendment was undertaken to align the definition
of a person with the Australian Government Guidelines on the Recognition of Sex
and Gender and the Australian Bureau of Statistics (ABS) Standard for Sex and
Gender Variables, which recognise that there are sex and gender types that are
not exclusively male or female.
