Specialist Homelessness Services NMDS 2017-19

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	650006
Registration status:	Homelessness , Superseded 10/08/2018
DSS type:	National Minimum Data Set (NMDS)
Scope:	<p>The Specialist Homelessness Services National Minimum Data Set (SHS NMDS) aims to provide quality information about people who are either homeless or at risk of homelessness and who are seeking services from specialist homelessness agencies.</p> <p>This collection is intended to obtain information about clients receiving ongoing or short-term support as well as people who are seeking assistance but did not receive any services. Data collection includes basic socio-demographic information and the services required by and provided to each client. Details about accompanying children are also recorded. Additionally, information is obtained about the client circumstances before, during and after receiving support.</p> <p>The base unit of this collection is a person who presents to a Specialist Homelessness Services (SHS) agency requesting a service or services. A person becomes a client once they receive a service or services. The period of time a client receives assistance from a SHS agency is commonly referred to as a support period. It relates to the provision of assistance and/or supported accommodation. A support period is considered finished when the relationship between the client and the agency ends or the client has reached their maximum amount of support.</p> <p>During a support period there are, in most cases, a series of service episodes or assistance, other than supported accommodation, provided to the client by the SHS agency. For the purposes of the SHS NMDS, assistance also includes contact with a client, or work on behalf of a client.</p> <p>The SHS NMDS has three 'views' for collection purposes, they are: Unassisted person, Client and Specialist homelessness agency.</p> <p>An 'Unassisted person' in the context of this collection is any person who seeks assistance from an agency and is not successful in obtaining that assistance. A 'Client' is a person who receives services either directly or indirectly from an agency. A 'Specialist homelessness agency' is an organisation which receives government funding to deliver a specialist homelessness service to a client. If clients present collectively, information is collected for each client but the group is referred to as a 'Presenting unit'.</p>

Collection and usage attributes

Guide for use:	For jurisdictions who have high volume central intake or localised entry point agencies (for example Victoria and the Australian Capital Territory), data for unmet demand and unassisted requests for services are not directly comparable with other states and territories.
Implementation start date:	01/07/2017
Implementation end date:	30/06/2019

Comments:

The 2011 SHS NMDS was developed to support the collection of data under the Intergovernmental Agreement on Federal Financial Relations for Homelessness. It replaced the Supported Accommodation Assistance Program (SAAP) collection from July 2011.

In 2008 the Council of Australian Governments (COAG) agreed to reform federal financial relations to improve the quality and effectiveness of government services. These reforms led to the establishment of the National Affordable Housing Agreement (NAHA) and the National Partnership Agreement on Homelessness (NPAH), which includes specific performance measures in relation to homelessness.

In conjunction with these reforms, the Australian Government initiated a comprehensive policy review, setting out a national approach to reducing homelessness in the White Paper: The Road Home, A National Approach to Reducing Homelessness.

The SHS NMDS 2017- continues to reflect the outcome based performance framework promoted by the COAG Reforms and White Paper. It supports the collection, analysis and reporting of client-based data. This allows for the production of statistical information about clients' circumstances, the assistance they receive and the outcomes that are achieved for them. This information can be used to inform policy design, evaluation, service improvement and monitoring of specialist homelessness services in Australia.

In addition, the SHS NMDS 2017- provides for the collection of information about SHS clients who are current and former members of the Australian Defence Force (ADF). This information will be used to better understand the extent to which this group may need support from SHS agencies and its particular circumstances before, during and after receiving support.

Conditional 4

Conditional obligation:

In the Specialist Homelessness Services NMDS, this item is only asked of clients.

This data element reflects the Australia Bureau of Statistics (ABS) Sources of income standard variable. Consequently, the value domain definitions explicitly exclude anyone aged under 15.

If income information on children under 15 years is sought for the Specialist Homelessness Services (SHS) NMDS, these persons may also be asked the sources of income questions. However, if comparability with ABS collections is required, the SHS data can be filtered using the age data element to remove responses for children aged under 15.

DSS specific information:

In the Specialist Homelessness Services (SHS) NMDS, this data element is collected four times, for the following points in time:

- one week before the start of the support period (the [Service episode—episode start date, DDMMYYYY](#))
- at the date of presentation
- at the end of the reporting period (the [Service event—last service provision date, DDMMYYYY](#))
- at the end of the support period (the [Service episode—episode end date, DDMMYYYY](#)).

Only one permissible value is selected in each case.

For the purposes of the SHS collection the following list is used which aggregates to the Australian Bureau of Statistics' Sources of Income Classification.

Government pensions and allowances

Newstart allowance

Parenting payment

Disability support pension (Centrelink)

Youth allowance

Age pension

Austudy/Abstudy

DVA pension or payment

Sickness allowance

Carer allowance
