Adoptive family—sibling composition, text X[X(199)]

Identifying and definitional attributes

Metadata item type: Data Element

Short name: Other sibling composition

METEOR identifier: 650286

Registration status: Children and Families, Superseded 03/11/2021

Definition: The sibling composition of the <u>family</u> into which a child is adopted, as represented

by text.

Data Element Concept: Adoptive family—sibling composition

Value Domain: $\underline{\text{Text X}[X(199)]}$

Value domain attributes

Representational attributes

Representation class: Text

Data type: String

Format: X[X(199)]

Maximum character length: 200

Data element attributes

Collection and usage attributes

Guide for use: This data element should be used in conjunction with Adoptive family—sibling

composition, type code N[N]].

This data element is used as a supplementary item in cases where 'other' is specified within a code frame and there is an option to describe the sibling

composition of the family.

If 'other' is indicated as the sibling composition type in <u>Adoptive family—sibling</u> composition, type code N[N]], provide details of the sibling composition of the

family (eg. foster children only, both biological and foster children).
