Person—country of birth, code (SACC 2016) NNNN

Identifying and definitional attributes

| | |
|------------------------------|--|
| Metadata item type: | Data Element |
| Short name: | Country of birth |
| METEOR identifier: | 659454 |
| Registration status: | Health! , Standard 06/12/2016 Tasmanian Health , Standard 27/06/2017 Disability , Standard 15/12/2017 Commonwealth Department of Social Services (retired) , Standard 20/06/2018 Homelessness , Standard 10/08/2018 Youth Justice , Standard 15/02/2022 |
| Definition: | The country in which the person was born, as represented by a code. |
| Data Element Concept: | Person—country of birth |
| Value Domain: | Country code (SACC 2016) NNNN |

Value domain attributes

Representational attributes

| | |
|----------------------------------|--|
| Classification scheme: | Standard Australian Classification of Countries 2016 |
| Representation class: | Code |
| Data type: | Number |
| Format: | NNNN |
| Maximum character length: | 4 |

Collection and usage attributes

| | |
|-----------------------|--|
| Guide for use: | <p>The Standard Australian Classification of Countries 2016 (SACC) is a four-digit, three-level hierarchical structure specifying major group, minor group and country.</p> <p>A country, even if it comprises other discrete political entities such as states, is treated as a single unit for all data domain purposes. Parts of a political entity are not included in different groups. Thus, Hawaii is included in Northern America (as part of the identified country United States of America), despite being geographically close to and having similar social and cultural characteristics as the units classified to Polynesia.</p> |
|-----------------------|--|

Source and reference attributes

|---------------------------------|--|

Data element attributes

Collection and usage attributes

Collection methods: Some data collections ask respondents to specify their country of birth. In others, a pre-determined set of countries is specified as part of the question, usually accompanied by an 'other (please specify)' category.

Recommended questions are:

In which country were you/was the person/was (name) born?

Australia

Other (please specify) ...

or

In which country were you/was the person/was (name) born?

Australia

England

New Zealand

India

Italy

Vietnam

Philippines

South Africa

Scotland

Malaysia

Other (please specify) ...

The option list for this question includes countries according to their statistical frequency in Australia, according to data from the Census of Population and Housing. Exceptions are made for countries such as 'United Kingdom' and 'China', as they are likely to reduce the level of detail that is possible to be coded to the Standard Australian Classification of Countries (SACC).

Comments: This metadata item is based on the Australian Bureau of Statistics' Country of Birth standard for collecting, processing and presenting country of birth statistics (ABS 2016a).

[Disability](#), Superseded 05/07/2019
Implementation start date: 01/07/2017

Implementation end date: 30/06/2018
DSS specific information:

In the Disability Services National Minimum Data Set (DS NMDS), the 10 most frequently reported countries of birth are listed on data collection forms to simplify data collection and minimise coding load on [service type outlets](#) and funding departments. Where the country of birth is known but is not specified in the listed countries of birth (i.e., is 'other country'), [funded agencies](#) should specify it on primary data collection forms. These will then be coded by funding departments to the appropriate Standard Australian Classification of Countries (SACC) code.
