National Indigenous Reform Agreement: PI 15b- Proportion of Indigenous 20–64 year olds with or working towards a post-school qualification in Certificate level III or above (survey data), 2018

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI 15b-Proportion of Indigenous 20–64 year olds with or working towards a post-school qualification in Certificate level III or above (survey data), 2018
METEOR identifier:	668653
Registration status:	Indigenous , Superseded 31/07/2018
Description:	Proportion of people aged 20–64 with or working towards post-school qualifications in Australian Qualifications Framework (AQF) Certificate level III or above, by Indigenous status.
Rationale:	Post-secondary education leads to better employment prospects and, for Indigenous people, will help to achieve the target to halve the gap in employment outcomes within a decade.
Indicator set:	National Indigenous Reform Agreement (2018) Indigenous , Superseded 31/07/2018
Outcome area:	The Indigenous workforce age population has the depth and breadth of skills and capabilities required for the 21st century labour market Indigenous , Standard 21/07/2010
Data quality statement:	National Indigenous Reform Agreement: PI 15b-Proportion of Indigenous 20-64 year olds with or working towards a post-school qualification in Certificate level III or above (survey data), 2018: Quality Statement Indigenous , Superseded 07/02/2019

Collection and usage attributes

Population group age from:	20 years						
Population group age to:	64 years						
Computation description:	Presentation: Number and percentage (per 100 persons). 95% confidence intervals and relative standard errors are calculated for proportions.						
Computation:	100 x (Numerator ÷ Denominator).						
Numerator:	People aged 20–64 who have attained a post-school qualification at the AQF Certificate level III or above, or are currently studying a non-school qualification at any level.						
Numerator data elements:	<table border="1"><tr><td>Data Element / Data Set</td></tr><tr><td>Level of current study.</td></tr><tr><td>Data Source</td></tr><tr><td>ABS Survey of Education and Work (SEW)</td></tr><tr><td>Guide for use</td></tr><tr><td>Data source type: Survey.</td></tr></table>	Data Element / Data Set	Level of current study. Data source type: Survey.

Comments:

No new data are available for this indicator.

Most recent data available for the 2016–17 reporting cycle are for 2014-15.

The most recent survey data for this indicator are:

- Indigenous: NATSISS 2014-15.
- Non-Indigenous: SEW data 2014.

The baseline report presented data from the 2008 NATSISS (Indigenous) and 2008 SEW (non-Indigenous) as the supplementary data collection.

For people 'with' a non-school qualification:

- People whose level of non-school qualification is determined to be certificate level but is not able to be further defined (that is, coded as Certificate nfd) are assumed to have attained a qualification below Certificate level III and are therefore excluded from the numerator for this indicator.
- People whose level of non-school qualification cannot be determined are assumed to have attained a qualification below Certificate level III and are therefore excluded from the numerator for this indicator.

For people 'working towards' a non-school qualification:

- Level of qualification is available from the NATSISS and SEW for people 'working towards' a post-school qualification but is not reported to maintain consistency with the main data source (Census) for which this disaggregation is not available. Therefore, people who are currently studying a non-school qualification at any level are included in the calculations for this data source for this indicator.

The denominator (total 20–64 year old population) excludes people whose level of non-school qualification or attendance status was not stated.

Prior to 2010, the SEW did not include people living in very remote areas. From 2010 onwards, the SEW includes people living in very remote areas excluding discrete Indigenous communities.

Prior to 2010, the SEW did not include the remoteness variable. Therefore, a non-Indigenous comparator for remoteness for the 2008 NATSISS is not reported.

The size of the standard errors mean that SEW data may not be adequate for measuring change over time.

Baseline year for the Council of Australian Governments' National Indigenous Reform Agreement target (Halve the gap in employment outcomes between Indigenous and non-Indigenous Australians within a decade) is 2008; baseline year for this measure is 2008; target year is 2018.

The term 'Aboriginal and Torres Strait Islander people' is preferred when referring to the separate Indigenous peoples of Australia. However, the term 'Indigenous' is used interchangeably with 'Aboriginal and Torres Strait Islander' in this indicator set to assist readability.
