# National Indigenous Reform Agreement: PI 11- Percentage of students at or above the national minimum standard in reading, writing and numeracy for Years 3, 5, 7 and 9, 2018

## Identifying and definitional attributes

<b>Metadata item type:</b>	Indicator
<b>Indicator type:</b>	Indicator
<b>Short name:</b>	PI 11-Percentage of students at or above the national minimum standard in reading, writing and numeracy for Years 3, 5, 7 and 9, 2018
<b>METEOR identifier:</b>	668655
<b>Registration status:</b>	<a href="#">Indigenous</a> , Superseded 31/07/2018
<b>Description:</b>	<p>There are two measures for this indicator, both to be reported by Indigenous status:</p> <p>(a) Proportion of students in Years 3, 5, 7 and 9 who achieved at or above the national minimum standard for reading, writing and numeracy.</p> <p>(b) Proportion of students in Years 3, 5, 7 and 9 who participated (includes all assessed and exempt students) in national testing, by Indigenous status.</p>
<b>Rationale:</b>	<p>Early educational experiences are important as they influence future academic performance. Students who do not attain the national reading, writing and numeracy benchmark standards are less likely to progress from Year 9 to Year 12 or equivalent attainment, to enter higher education and have lower employment prospects. Indigenous students have lower literacy and numeracy attainment than non-Indigenous students. This is a key indicator in measuring the Closing the Gap target of halving the gap for Indigenous students in reading, writing and numeracy within a decade.</p>
<b>Indicator set:</b>	<a href="#">National Indigenous Reform Agreement (2018)</a> <a href="#">Indigenous</a> , Superseded 31/07/2018
<b>Outcome area:</b>	<a href="#">Indigenous students meet basic literacy and numeracy standards and overall levels of literacy and numeracy are improving</a> <a href="#">Indigenous</a> , Standard 21/07/2010
<b>Data quality statement:</b>	<a href="#">National Indigenous Reform Agreement: PI 11—Percentage of students at or above the national minimum standard in reading, writing and numeracy for Years 3, 5, 7 and 9, 2018; Quality Statement</a> <a href="#">Indigenous</a> , Superseded 07/02/2019

## Collection and usage attributes

**Computation description:** Measure (a):

There is no discrete numerator and denominator for this measure. See National Assessment Program—Literacy and Numeracy (NAPLAN) reports (ACARA 2016) for more detail.

NAPLAN reports the percentage of students who achieved at or above the national minimum standard across five areas: reading, numeracy, persuasive writing, spelling, and grammar and punctuation. The complex process by which student scores are arrived at and distributed across the national achievement bands (using the Rasch model, a recognised analysis model for educational measurement) are agreed by states, territories and the Australian Government and endorsed by the then NAPLAN Expert Advisory Group. Due to the complexities of the methodology, it is not possible (with the data currently provided) to give a simple computation of the precise number of students at or above the national minimum standard, which is best reported in the bands designed for that purpose.

Measure (b):

Presentation: per 100 (percentage).

Proportion of exempt, absent and withdrawn students are to be reported as separate categories.

**Computation:**

Measure (a):

Proportions are calculated using an interpolation process. They are not simply the numerator ÷ denominator as the computation is more complex than this. See NAPLAN reports (ACARA 2016) for more detail.

Measure (b):

$100 \times (\text{Numerator} \div \text{Denominator})$ .

**Numerator:**

Measure (b):

Number of students (assessed and exempt) in Years 3, 5, 7 and 9 who participated in NAPLAN reading, writing and numeracy tests.

**Numerator data elements:**

**Data Element / Data Set**

National standard achievement status for numeracy.

**Guide for use**

Data source type: Administrative by-product data.

**Disaggregation:**

Measure (a) and (b):

For each Year level (Years 3, 5, 7 and 9— reported individually) by learning domain (reading, writing and numeracy— reported individually): National and state/territory by Indigenous status, by geo-location.

Measure (b):

Data also reported on the proportion of students exempt, absent and withdrawn, by Indigenous status, by state/territory.

Data source type: Administrative by-product data.

**Comments:**

Most recent data available for the 2018 National Indigenous Reform Agreement (NIRA) Report is 2017.

For pre-2016 data, geo-location was determined based on the Ministerial Council for Education, Early Childhood Development and Youth Affairs (MCEECDYA) geographical location classification. For 2016 data and later, geo-location is determined based on the Australian Bureau of Statistics Australian Statistical Geography Standard (ASGS) and reported for the 5 remoteness categories, resulting in a break in time-series

Participation rates disaggregated by state/territory were reported for Indigenous students and all students in the (2008–09) baseline Council of Australian Governments (COAG) Reform Council report. Rates for non-Indigenous students are reported in the 2009–10 report onwards.

Exempt, absent and withdrawn students are reported separately in the 2010–11 report onwards.

Baseline year for the COAG NIRA target (Halve the gap for Indigenous students in reading, writing and numeracy within a decade) is 2008; baseline year for this indicator is 2008; target year is 2018.

The term ‘Aboriginal and Torres Strait Islander people’ is preferred when referring to the separate Indigenous peoples of Australia. However, the term ‘Indigenous’ is used interchangeably with ‘Aboriginal and Torres Strait Islander’ in this indicator set to assist readability.

## Representational attributes

<b>Representation class:</b>	Percentage
<b>Data type:</b>	Real
