Collection and usage attributes

Guide for use: Each person is only counted once, no matter how many times that they were admitted into residential care during the year.

Includes:

- clients who received non-residential care in the form of counselling, assessment, treatment, education, support and/or home visits
- clients who received follow-up after discharge from residential services
- clients who received family/relationship counselling (for people who were officially clients of the service, i.e. they have their own file)
- clients who received Mobile Assistance Patrol/night patrol clients who were taken to a sober-up shelter run by another service.

Excludes:

- residential clients unless they also received non-residential care such as telephone follow-up after discharge
- clients who only attended groups and did not receive individual care
- Mobile Assistance Patrol/night patrol clients who were taken to a your sober-up shelter.

Collection methods: The Aboriginal and Torres Strait Islander standalone substance use service is required to provide numbers of male, female and total clients in non-residential/follow-up/aftercare by Indigenous status and age group (0–18, 19–35 and 36 years and over), as detailed in the Scope, Clients in non-residential /follow-up/aftercare table. The total Indigenous and non-Indigenous clients may include unknown or not reported sex. Total sex may include unknown or not reported Indigenous status.
