Non-admitted patient service event—multiple health-care provider indicator, yes/no/not stated/inadequately described code N

Exported from METEOR (AIHW's Metadata Online Registry)

Non-admitted patient service event—multiple health-care provider indicator, yes/no/not stated/inadequately described code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Multiple health-care provider indicator
Synonymous names:	Multiple health-care provider flag
METEOR identifier:	679876
Registration status:	Health!, Superseded 05/02/2021
Definition:	An indicator of whether a non-admitted patient service event was delivered by multiple health-care providers, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Non-admitted patient service event—multiple health-care provider indicator
METEOR identifier:	652537
Registration status:	Health!, Standard 05/10/2016
Definition:	An indicator of whether a non-admitted patient service event was delivered by multiple health-care providers.
Context:	Non-admitted patient care.
Object class:	Non-admitted patient service event
Property:	Multiple health-care provider indicator

Source and reference attributes

Submitting organisation:	Independent Hospital Pricing Authority

Value domain attributes

Identifying and definitional attributes

Value domain:	Yes/no/not stated/inadequately described code N
METEOR identifier:	301747
Registration status:	Health!, Standard 21/09/2005 Housing assistance, Standard 10/02/2006 Community Services (retired), Standard 14/02/2006 Early Childhood, Standard 21/05/2010 Homelessness, Standard 23/08/2010 Independent Hospital Pricing Authority, Standard 01/11/2012 Disability, Standard 07/10/2014 Indigenous, Standard 13/03/2015 Children and Families, Standard 22/11/2016
Definition:	A code set representing 'yes', 'no' and 'not stated/inadequately described'.

Representational attributes

Representation class:	Code

	Value	Meaning
Data type:	Number	
Format:	N	
Maximum character length:	1	
Permissible values:	1	Yes
	2	No
Supplementary values:	9	Not stated/inadequately described

Collection and usage attributes

Guide for use: CODE 9   Not stated/inadequately described

This code is not for use in primary data collections.

Data element attributes

Collection and usage attributes

Guide for use: CODE 1   Yes

This code is used to indicate that direct care has been provided by multiple health-care providers.

CODE 2   No

This code is used to indicate that direct care has not been provided by multiple health-care providers.

CODE 9   Not stated/inadequately described

This code is used when there is insufficient information to determine whether direct care has been provided by multiple health-care providers.

Collection methods: The definition of the term 'multiple health-care provider' can vary depending on the context and/or collection in which the term is being applied.

For example, in the context of reporting non-admitted activity data for activity based funding, 'multiple health-care provider' means three or more health-care providers who deliver care either individually or jointly within a non-admitted patient service event. The health-care providers may be of the same profession (medical, nursing or allied health). However, they must each have a different speciality so that the care provided by each provider is unique and meets the definition of a non-admitted patient service event.

In practice, this should be interpreted as meaning that the patient can separately identify the unique care provided by each health-care provider. For example:

- A patient attends a pain management clinic for assessment. At the assessment there is a doctor specialising in chronic diseases, a doctor specialising in pain management, a nurse specialising in pain management and an occupational therapist. As each provider will provide unique clinical content to the assessment, this is counted as multiple health-care providers.
- A patient attends a rehabilitation clinic and sees a physiotherapist, an occupational therapist and then a nurse, all individually. This would be counted as multiple health-care providers.
- A patient attends a hydrotherapy clinic, sees a physiotherapist who provides a plan, and then completes the plan with a physiotherapist aid. This would not be counted as multiple health-care providers.
