Service type outlet—unpaid staff hours worked, total hours NNNNN

Identifying and definitional attributes

Metadata item type: Data Element

Short name: Unpaid staff hours worked

METEOR identifier: 680412

Registration status: <u>Disability</u>, Standard 15/12/2017

Definition: The total number of hours worked by unpaid staff in a service type outlet.

Data Element Concept: Service type outlet—unpaid staff hours worked

Value Domain: <u>Total hours NNNNN</u>

Value domain attributes

Representational attributes

Representation class: Total

Data type: Number

Format: NNNNN

Maximum character length: 5

Unit of measure: Hour (h)

Collection and usage attributes

Guide for use: Total hours expressed as 00000, 00001, 00425 etc.

Data element attributes

Collection and usage attributes

Guide for use: This item is asking for actual staff hours worked by volunteer staff, not the rostered

hours or full-time equivalent staff.

Collection methods: In some collections this metadata item may be collected for a specified week.

Other collections may specify a 'usual' week or an average week calculated from a

number of weeks or the entire year.

Comments: This data element assists in the analysis of staffing inputs and to enable a

comparison of the staffing requirements of different service types.

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Implementation in Data Set Disability Services NMDS 2017–18

Disability, Superseded 05/07/2019

Specifications:

Implementation start date: 01/07/2017 *Implementation end date:* 30/06/2018

DSS specific information:

In the Disability Services National Minimum Data Set (DS NMDS), hours worked by unpaid staff refers to the actual total hours worked by staff, volunteers or students and others who do not receive payment for the work which they perform on behalf of the service type outlet. It collects hours worked, not full-time equivalents or rostered weekly hours. It includes hours worked on behalf of the service type outlet both directly delivered to service users, and indirectly to service users (for example, indirect hours such as related committee meetings).

This data element is collected twice within the Disability Services National Minimum Data Set (DS NMDS):

- the actual total hours worked by all volunteer/unpaid staff for a service type outlet in the 7-day **reference** week (i.e. for the week preceding the end of the reporting period); and
- actual total hours worked by all volunteer/unpaid staff for a service type outlet for a **typical** 7-day week.

Staff hours should be rounded up to the nearest whole hour.

Inclusions and exclusions for the calculation of unpaid/volunteer staff hours:

- Includes:
 - o staff hours worked as unpaid work by usually paid or contract staff
 - staff hours worked by administrative staff, managers etc. (i.e. indirect staff relating to this service type outlet)
 - staff hours worked by Board members relating to this service type
 - staff hours worked by staff contracted to clean premises
 - o staff hours worked by staff receiving training relevant to this service type
 - staff hours worked while travelling to a location to assist/visit a service user
- Excludes:
 - staff hours worked while staff receive payment for sleepover duties
 - staff hours worked on committees or at meetings relevant to this service type
 - staff hours worked as paid overtime (to be included with paid staff hours)
 - staff hours for workers on leave (including public holidays, paid/unpaid sick leave, i.e. this data element relates to staff hours worked, not staff hours paid for)
 - staff hours normally worked in positions that are currently vacant staff hours allocated to non-National Disability Agreement (NDA) service users.

For <u>funded agencies</u> with multiple service type outlets (and where staff hours per service type outlet are not known), all staff should be apportioned across service type outlets. To apportion staff across different service type outlets it is recommended that agencies:

- use fortnightly rosters as a starting point apportion total staff hours across funded service types
- divide this figure by two to get weekly staff hours for the week preceding the end of the reporting period.

A funded agency may receive funding from multiple sources, however for DS NMDS purposes, only those services provided using NDA funds should be recorded. Where a funded agency is unable to differentiate all data according to funding source (i.e. NDA or other), they are asked to provide full details (in this case, staff hours) regardless of funding source.

If the service type outlet is funded to provide service type 2.06 *Case management, local coordination and development*, the following rules for calculating staff hours apply:

 record staff hours relating to the case coordination/management/brokerage activities undertaken (including administrative time, board member time etc. as above)

- do not record the staff hours for the agencies who provide any services arranged, purchased or brokered by your service type outlet as part of providing service type 2.06
- see also data elements 17e–f 'hours received' per service user, as similar rules apply to the calculation of hours received by service users.

If the service type outlet sub-contracts the provision of part or all of a service type (other than 2.06) they are funded to provide to another agency:

- the service type outlet who is sub-contracting another agency is responsible
 for providing relevant details about the sub-contracted activity (for
 example, in-home accommodation support provider sub-contracting the
 provision of some in-home accommodation support to another agency, which
 may or may not be funded under the NDA)
- the service type outlet who is sub-contracting another agency should include an estimate of the staff hours sub-contracted in this way with the staff hours allocation for their service type outlet (and the sub-contractor outlet should not include these hours in their service type outlet return, if they are also included in the DS NMDS)
- see also data elements 17e–f 'hours received' per service user, as similar rules apply to the calculation of hours received by service users.
