Data element attributes

Collection and usage attributes

Guide for use:

CODE 1 Yes

This code is used to indicate the presence of the selected factor, as listed in the Factors Influencing Health Status (FIHS) chapter (Chapter 21) in the International Classification of Diseases and Related Health Problems-10th Revision-Australian Modification (ICD-10-AM).

CODE 2 No

This code is used to indicate that the selected factor was not present, as listed in the FIHS chapter (Chapter 21) in ICD-10-AM.

CODE 8 Unknown

This code is used to indicate that it was not possible to determine the presence of the selected factor, as listed in the FIHS chapter (Chapter 21) in ICD-10-AM.

CODE 9 Not stated/inadequately described

This code is used to indicate that the presence of the selected factor, as listed in the FIHS chapter (Chapter 21) in the ICD-10-AM, was not stated or was missing or where a response contained insufficient information to be coded to code 1, code 2 or code 8.

Collection methods:

The FIHS code set is derived from the FIHS chapter in ICD-10-AM.

The FIHS contain seven categories:

- maltreatment syndromes
- problems related to negative life events in childhood
- problems related to upbringing
- problems related to primary support group, including family circumstances
- problems related to social environment
- problems related to certain psychosocial circumstances
- problems related to other psychosocial circumstances.

The FIHS is a simple checklist used to indicate whether one or more psychosocial factors are present during an episode of care.

Has been superseded by [Episode of care—FIHS psychosocial complications indicator, yes/no/unknown/not stated/inadequately described code N Health!](#), Standard 23/12/2020

Implementation in Data Set Specifications: [Activity based funding: Mental health care NBEDS 2018-19](#)
[Health!](#), Superseded 12/12/2018

Implementation start date: 01/07/2018

Implementation end date: 30/06/2019

Conditional obligation:

Reporting of FIHS at the commencement of the second and subsequent mental health phase of care in an episode of mental health care is mandatory for patients in all settings.

If an episode of mental health care only contains one phase of care, then the FIHS is required to be reported at the end of the phase of care.

FIHS should only be reported for patients aged 17 years and under.

Reporting of FIHS is not mandatory for assessment only.
