Non-admitted patient emergency department service episode—triage category, code N

Identifying and definitional attributes

| | |
|------------------------------|--|
| Metadata item type: | Data Element |
| Short name: | Triage category |
| METEOR identifier: | 684872 |
| Registration status: | Health! , Superseded 20/10/2021 |
| Definition: | The urgency of a non-admitted patient's need for medical and/or nursing care in an emergency department, as assessed at triage , as represented by a code. |
| Context: | Emergency department care. |
| Data Element Concept: | Non-admitted patient emergency department service episode—triage category |
| Value Domain: | Triage category code N |

Value domain attributes

Representational attributes

| | |
|----------------------------------|--------|
| Representation class: | Code |
| Data type: | Number |
| Format: | N |
| Maximum character length: | 1 |

| | Value | Meaning |
|----------------------------|--------------|---|
| Permissible values: | 1 | Resuscitation: immediate (within seconds) |
| | 2 | Emergency: within 10 minutes |
| | 3 | Urgent: within 30 minutes |
| | 4 | Semi-urgent: within 60 minutes |
| | 5 | Non-urgent: within 120 minutes |

Data element attributes

Collection and usage attributes

Collection methods: This triage classification is to be used in the emergency departments of hospitals. Patients will be triaged into one of five categories on the Australasian Triage Scale according to the triageur's response to the question: 'This patient should wait for medical care no longer than ...?'.

The triage category is allocated by an experienced [registered nurse](#) or medical practitioner. If the triage category changes, both triage categories can be captured, but the original category must be reported in this data element.

A triage category should not be assigned for patients who have a Type of visit of 'Dead on arrival, emergency department clinician certified the death of the patient'.

Comments: Required to provide data for analysis of emergency department processes.
