Indigenous primary health care: PI01a-Number of Indigenous babies born within the previous 12 months whose birth weight has been recorded, 2015-2017

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	Pl01a-Number of Indigenous babies born within the previous 12 months whose birth weight has been recorded, 2015-2017
METEOR identifier:	686339
Registration status:	<u>Health!</u> , Superseded 17/10/2018 <u>Indigenous</u> , Superseded 17/10/2018
Description:	Number of Indigenous babies born within the previous 12 months whose <u>birth</u> weight has been recorded at the primary health care service.
Rationale:	Low birth weight (newborn babies weighing less than 2,500 grams) is associated with an increased risk of ill health and is related to higher mortality within the first year of life. Low birth weight is a particular issue for Indigenous Australians. Recording birth weight encourages the provision of appropriate care to limit the negative associations of low birth weight.
Indicator set:	Indigenous primary health care key performance indicators (2015-2017) Health!, Superseded 17/10/2018 Indigenous, Superseded 17/10/2018

Collection and usage attributes

Computation description:	Count of Indigenous babies born within the previous 12 months whose birth weight has been recorded at the primary health care service.
	Birth weight is defined as the first weight of a baby obtained after birth.
	Only live births are included.
	Results arising from measurements conducted outside of the service, that are known by the service, are included in the calculation of this indicator.
	Presented as a number.
	'Previous 12 months' refers to the previous financial year or previous calendar year.
Computation:	Numerator only.
Numerator:	Number of Indigenous babies born within the previous 12 months whose birth weight has been recorded at the primary health care service.

-Data Element / Data Set-

Birth-birth status, code N

Data Source

Indigenous primary health care data collection

NMDS / DSS

Indigenous primary health care NBEDS 2017-18

Guide for use

Only live births are included.

- Data Element / Data Set-

Person—birth weight recorded indicator, yes/no code N

Data Source

Indigenous primary health care data collection
