Pregnancy—birth plurality, code N

Identifying and definitional attributes

| | |
|-----------------------------|---|
| Metadata item type: | Data Element |
| Short name: | Birth plurality |
| Synonymous names: | Multiple birth |
| METEOR identifier: | 695308 |
| Registration status: | Health! , Superseded 03/12/2020 Indigenous , Superseded 14/07/2021 |
| Definition: | The number of births resulting from a single pregnancy, as represented by a code. |
| Context: | Perinatal. Multiple pregnancy increases the risk of complications during pregnancy, labour and delivery and is associated with higher risk of perinatal morbidity and mortality. |

Data element concept attributes

Identifying and definitional attributes

| | |
|------------------------------|---|
| Data element concept: | Pregnancy—birth plurality |
| METEOR identifier: | 695301 |
| Registration status: | Health! , Standard 12/12/2018 Indigenous , Standard 02/04/2019 |
| Definition: | The number of births resulting from a single pregnancy. |
| Context: | Perinatal |
| Object class: | Pregnancy |
| Property: | Birth plurality |

Value domain attributes

Identifying and definitional attributes

| | |
|-----------------------------|---|
| Value domain: | Birth plurality code N |
| METEOR identifier: | 695305 |
| Registration status: | Health! , Superseded 03/12/2020 Indigenous , Superseded 14/07/2021 |
| Definition: | A code set representing the number of births. |

Representational attributes

| | |
|----------------------------------|--------|
| Representation class: | Code |
| Data type: | Number |
| Format: | N |
| Maximum character length: | 1 |

| Value | Meaning |
|-------|---------|
|-------|---------|

| | | |
|------------------------------|---|-----------------------------------|
| Permissible values: | 1 | Singleton |
| | 2 | Twins |
| | 3 | Triplets |
| | 4 | Quadruplets |
| | 5 | Quintuplets |
| | 6 | Sextuplets |
| | 8 | Other |
| Supplementary values: | 9 | Not stated/inadequately described |

Data element attributes

Collection and usage attributes

Guide for use: Plurality at birth is determined by the total number of [live births](#) and [stillbirths](#) that result from the pregnancy.

Stillbirths, including those where the fetus was likely to have died before 20 weeks gestation (including fetus papyraceous and fetus compressus), should be included in the count of plurality if recognisable as a fetus and expelled or extracted with other products of conception at 20 or more weeks gestation.
