Female—number of tobacco cigarettes smoked per day after 20 weeks of pregnancy, total N[NN]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Number of tobacco cigarettes smoked per day after 20 weeks of pregnancy
METEOR identifier:	695382
Registration status:	Health! , Standard 12/12/2018
Definition:	The total number of tobacco cigarettes usually smoked daily by a female after 20 weeks of pregnancy until the birth.
Context:	Perinatal

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Female—number of tobacco cigarettes smoked per day after 20 weeks of pregnancy
METEOR identifier:	695379
Registration status:	Health! , Standard 12/12/2018
Definition:	The number of tobacco cigarettes usually smoked daily by a female after 20 weeks of pregnancy until the birth.
Context:	Perinatal
Object class:	Female
Property:	Number of tobacco cigarettes smoked per day after 20 weeks of pregnancy

Value domain attributes

Identifying and definitional attributes

Value domain:	Total tobacco cigarettes N[NN]
METEOR identifier:	696115
Registration status:	Health! , Standard 12/12/2018
Definition:	The total number of tobacco cigarettes usually smoked daily.

Representational attributes

Representation class:	Total	
Data type:	Number	
Format:	N[NN]	
Maximum character length:	3	
	Value	Meaning
Supplementary values:	998	Occasional smoking (less than one)
	999	Not stated/inadequately described

Data element attributes

Collection and usage attributes

Guide for use: CODE 998 Occasional smoking (less than one)
Includes females who report that they usually smoked less than one tobacco cigarette per day.

'After 20 weeks' is defined as greater than or equal to 20 completed weeks' gestation (≥ 20 weeks + 0 days).

'Usually' is defined as 'according to established, or frequent usage; commonly, ordinarily; as a rule'. If a female reports having quit smoking at some point between 20 weeks of pregnancy and the birth, the value recorded should be the number of tobacco cigarettes usually smoked daily prior to quitting.

Collection methods: This data element is self-reported.

Recommended question: 'How many tobacco cigarettes did you usually smoke each day after 20 weeks of pregnancy?', where after 20 weeks of pregnancy is defined as greater than or equal to 20 weeks + 0 days.

If a female did not smoke tobacco cigarettes at any time after 20 weeks of pregnancy, a value of 0 should be recorded.

To ensure consistency of results, this data element should be collected after the birth.
