Establishment—Local Hospital Network identifier, code NNN

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Local Hospital Network identifier
Synonymous names:	LHN ID; Local Health District identifier (NSW); Hospital and Health Service identifier (Qld); Health Service Provider identifier (WA); Local Health Network identifier (SA)
METEOR identifier:	709966
Registration status:	Health!, Superseded 23/09/2019
Definition:	A unique Local Hospital Network (LHN) identifier for an establishment within a jurisdiction, as represented by a code.
Data Element Concept:	Establishment—Local Hospital Network identifier
Value Domain:	Local Hospital Network identifier code NNN

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	NNN	
Maximum character length:	3	
	Value	Meaning
Permissible values:	101	South Eastern Sydney
	102	Sydney
	103	South Western Sydney
	104	Western Sydney
	105	Nepean Blue Mountains

Collection and usage attributes

Guide for use:	A total of 140 Local Hospital Networks have been established across the states and territories. Most of these are geographically based networks and some are state or territory-wide networks that may deliver specialised hospital services across some jurisdictions.
	CODE 101 South Eastern Sydney
	Includes Lord Howe Island.
	Codes 217, 265, 272, 310, 311, 404, 601, 602 and 603 have been deleted from previous versions of the list of permissible values and are not to be reused.
	For activity based funding purposes, a virtual Local Hospital Network identifier exists for each jurisdiction. Virtual Local Hospital Networks are entities that are only used for reporting services that are in-scope for activity based funding but which cannot be allocated to an established Local Hospital Network. The various virtual Local Hospital Network identifiers are intended to be primarily used to enable reconciliation of activity reported for funding purposes.
Comments:	Some jurisdictions have their own local terminology for the areas and administrative units known nationally as Local Hospital Networks. For example, in New South Wales they are known as 'Local Health Districts', in Queensland they are known as 'Hospital and Health Services', in Western Australia they are known as 'Health Service Providers', and in South Australia they are known as 'Local Health Networks'.
	More information about Local Hospital Networks is available through the Local Hospital Network portal on the Administrator National Health Funding Pool website.

Data element attributes

Collection and usage attributes

Guide for use:	A concatenation of:
	Australian state/territory identifier (character position 1);
	State/Territory-specific hospital network identifier (character positions 2-3).
Comments:	The Local Hospital Network identifier should be able to distinguish between all public hospital administrative areas or units nationally.
