National Healthcare Agreement: PI 14—People deferring access to selected healthcare due to financial barriers, 2020

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Progress measure
Short name:	PI 14—People deferring access to selected healthcare due to financial barriers, 2020
METEOR identifier:	716458
Registration status:	Health! , Standard 13/03/2020
Description:	Proportion of people who required treatment but deferred that treatment due to cost, by type of health service.
Indicator set:	National Healthcare Agreement (2020) Health! , Standard 13/03/2020
Outcome area:	Primary and Community Health Health! , Standard 07/07/2010

Collection and usage attributes

Population group age from:	15 years					
Computation description:	Population is limited to persons aged 15 and over. Analysis by remoteness and Socio-Economic Indexes for Areas (SEIFA) – Index of Relative Socio-Economic Disadvantage (IRSD) is based on usual residence of the person. Presented as a percentage. 95% confidence intervals and relative standard errors calculated for rates.					
Computation:	$100 \times (\text{Numerator} \div \text{Denominator})$ calculated separately for each type of healthcare (GP, medical specialist, prescribed medication, dental care, pathology or imaging tests).					
Numerator:	(a) Number of persons aged 15 and over who reported delaying or not seeing a GP in the last 12 months because of cost. (b) Number of persons aged 15 and over who reported delaying or not seeing a medical specialist in the last 12 months because of cost. (c) Number of persons aged 15 and over who reported delaying or not getting a prescription filled for medication in the last 12 months because of cost. (d) Number of persons aged 15 and over who reported delaying or not seeing a dental professional in the last 12 months because of cost. (e) Number of persons aged 15 and over who reported delaying or not getting pathology or imaging tests in the last 12 months because of cost.

Data source type: Survey

Denominator:

- (a) Total number of persons aged 15 and over who saw a GP or needed to see a GP but didn't in the last 12 months.
- (b) Total number of persons aged 15 and over who received a written referral to a specialist by a GP in the last 12 months.
- (c) Total number of persons aged 15 and over who received a prescription for medication from a GP in the last 12 months.
- (d) Total number of persons aged 15 and over who saw a dental professional or who needed to see a dental professional but didn't in the last 12 months.
- (e) Total number of persons aged 15 and over who had a pathology or imaging test or who needed a pathology or imaging test but didn't get one in the last 12 months.

Disaggregation:

Data source type: Survey
2018–19—State and Territory, by type of healthcare (GP, prescribed medication, i.e. measures (a) and (c)), by:

- remoteness (Australian Statistical Geography Standard (ASGS) – Edition 2016 – Remoteness Area) (Major cities, other).

2018–19—State and Territory, by type of healthcare (medical specialist, dental care, pathology or imaging tests, i.e. measures (b), (d) and (e)) (not reported).

2018–19—State and Territory, by type of healthcare (GP, medical specialist, prescribed medication, dental care, pathology or imaging tests, i.e. measures (a) to (e)), by (not reported):

- remoteness (Australian Statistical Geography Standard (ASGS) – Edition 2016 – Remoteness Area) (Major cities, other)

2018–19—Nationally by type of healthcare (GP, medical specialist, prescribed medication, dental care, pathology or imaging tests, i.e. measures (a) to (e)), by (all not reported):

- sex
- Socio-Economic Indexes for Areas (SEIFA) Index of Relative Socioeconomic Disadvantage (IRSD) – 2016 – deciles
- remoteness (Australian Statistical Geography Standard (ASGS) – Edition 2016 – Remoteness Area) (Major cities, Inner regional, Outer regional, Remote/Very remote)

Some disaggregation may result in numbers too small for publication.

Data source type: Survey

Used for disaggregation by state/territory and remoteness

Comments:

Most recent data available for 2020 National Healthcare Agreement performance reporting: 2018–19 (total population: PEX); 2018–19 (Indigenous: NATSIHS).

Non-Indigenous data from PEX may not be directly comparable with data for Indigenous people from AATSIHS.

Information about dental practitioners is obtained by asking survey respondents about services received from a dental professional. Examples of dental professionals given to survey respondents in the questionnaire are dentists, dental hygienists and dental specialists. The intention is that survey respondents should provide information about all dental professionals, which may additionally include such practitioners as dental therapists, oral health therapists, and dental prosthetists, as well as specialists such as orthodontists, periodontists and endodontists.

Pathology and imaging tests exclude those had while in hospital. Imaging tests also exclude dental imaging tests.

Some survey respondents may report pathology and imaging as a referral to a medical specialist.

Representational attributes

Representation class: Percentage
Data type: Real
Unit of measure: Person
Format: N[NN].N
