Episode of residential care—episode start mode

Identifying and definitional attributes

Metadata item type:	Data Element Concept
METEOR identifier:	723216
Registration status:	Health!, Standard 16/01/2020
Definition:	The reason for **starting an episode of residential care**.
Context:	Specialised mental health services (Residential mental health care).

Object Class attributes

Identifying and definitional attributes

Object class:	Episode of residential care
Definition:	The period of care between the start of residential care (either through the formal start of the residential stay or the start of a new reference period) and the end of the residential care (either through the formal end of residential care or the end of the reference period, i.e. 30 June).

Collection and usage attributes

Comments:	For **residents** provided with care intended to be on an overnight basis. This may occasionally include episodes of residential care that unexpectedly ended on the same day as they started (for example, the resident died or left against advice) or began at the end of the reference period (i.e. starting care on 30 June).

Property attributes

Identifying and definitional attributes
