METEOR identifier:	728785
Registration status:	Health!, Recorded 05/01/2021
Definition:	The number of people who are considered to be regular clients of service providers within a Primary Health Network at a given point in time and who have had their tobacco smoking status recorded.
Object class:	Primary Health Network
Property:	Number of regular clients with a tobacco smoking status recorded

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare.

Value domain attributes

Identifying and definitional attributes

Value domain:	Total number N[NNNNNN]
METEOR identifier:	506161
Registration status:	Health!, Standard 13/11/2014
Definition:	The total number.

Representational attributes

Representation class:	Total
Data type:	Number
Format:	N[NNNNNN]
Maximum character length:	7

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Comments: The definition of a regular client can vary depending on the context and/or collection in which the term is being applied, but generally involves a minimum number of visits to an organisation or agency or uses of a facility, occurring over a specific period of time. For example, in the primary health care context a regular client may be someone who has visited a particular primary health care provider 3 or more times in the last 2 years.
