<b>Scope:</b>	<p>The Admitted subacute and non-acute hospital care national best endeavours data set (ASNAHC NBEDS) aims to ensure national consistency in relation to defining and collecting information about care provided to subacute and non-acute admitted public and private patients in <a href="#">activity based funded</a> public hospitals.</p> <p>Subacute care in this NBEDS is identified as admitted episodes in rehabilitation care, palliative care, geriatric evaluation and management care and psychogeriatric care.</p> <p>Non-acute care in this NBEDS is identified as admitted episodes of maintenance care.</p> <p>The scope of the NBEDS is:</p> <ul style="list-style-type: none"><li>• same-day and overnight admitted subacute and non-acute care episodes</li><li>• admitted public patients provided on a contracted basis by private hospitals</li><li>• admitted patients in rehabilitation care, palliative care, geriatric evaluation and management, psychogeriatric care and maintenance care treated in the hospital-in-the-home.</li></ul> <p>Excluded from the scope are:</p> <ul style="list-style-type: none"><li>• hospitals operated by the Australian Defence Force, correctional authorities and Australia's external territories.</li></ul>

## Collection and usage attributes

<b>Statistical unit:</b>	<a href="#">Episodes of care for admitted patients</a>
<b>Guide for use:</b>	<b><i>Interaction with the Individual Healthcare Identifier national best endeavours data set (IHI NBEDS)</i></b> <p>The ASNAHC NBEDS and IHI NBEDS work together to enable the reporting of IHI data for admitted subacute and non-acute episodes of care.</p>
<b>Collection methods:</b>	<p>Data are collected at each hospital from patient administrative and clinical record systems. Hospitals forward data to the relevant state or territory health authority on a regular basis (e.g. monthly).</p> <p><b><i>National reporting arrangements</i></b></p> <p>State and territory health authorities provide the data to the Australian Institute of Health and Welfare for national collation, on an annual basis.</p> <p>State and territory health authorities provide the data to the Independent Hospital Pricing Authority for national collation, on a quarterly basis.</p> <p>For palliative care type episodes, data elements for each change in phase of care will be required to be reported.</p> <p><b><i>Periods for which data are collected and nationally collated:</i></b></p> <p>Quarterly or annually (financial year) ending 30 June each year.</p>
<b>Implementation start date:</b>	01/07/2022

**Implementation end date:** 30/06/2023

**Comments:** Scope links with other National Minimum Data Sets (NMDSs):

The ASNAHC NBEDS includes the collection and reporting of additional metadata which forms part of the broader Admitted patient care NMDS.
